REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Conley et al. (6,415,175) shows two histograms, one for atrial events and one for ventricular events. Even if it would have been obvious to one with ordinary skill in the art at the time the invention was made to combine the two histograms into one histogram to provide a more efficient and less crowded display, Conley et al. does not teach or suggest a right ventricular statistical distribution and a left ventricular distribution. The examiner points out that the specification provides a motivation for including both a right ventricular event distribution and a left ventricular event distribution in a histogram. Including a right ventricular event distribution and a left ventricular event distribution in a histogram assists the viewer in comparing cardiac events to evaluate a resynchronization therapy (page 3, lines 7-10, page 19, line 22 – Page 21, line 18; Figs 6-11).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
